

SUMMARY OF QUALIFICATIONS (v2018-2)

Rudy Habedus C.E.T.
Consultant

Technical:

- 20+ years of in-depth experience with pipeline valves in both liquid and gas applications.
- 10+ years of in-depth measurement experience in both gas & liquid applications.
- 15+ years of field experience with both liquid & gas pipelines, and hydrocarbon facilities. 5+ years of Confined Space Entries.
- Very good working knowledge of pipeline operations and service requirements.

- Good working knowledge of the following codes:
 - CSA Z662, Z245.15 (valves)
 - API-6D
 - ASME B16.34
 - ISO 5167/AGA 3 (Parts 1-4)

- Extensive experience in training new Technicians for operation/repair of:
 - Daniel brand orifice fittings
 - M&J brand valves (full spectrum)
 - GD brand Quick opening closures

- Extensive knowledge of energy industry manufacturing processes:
 - machining
 - metal treatment processes (i.e heat treatment, coatings)
 - welding
 - NDE
 - casting, forging, forming
 - materials (including elastomers)

- Wrote and presented several technical papers at both ISA & CGA Measurement School conferences pertaining to key aspects of hydrocarbon measurement covering primary devices, computers, and chromatography and their combined use.

Operations Management:

- Solely responsible for Alberta based Corporation.
- Development and implementation of alliance based engineered pressure fittings service programs across Canada.
- Directly responsible for managing Canada based product inventory using a 3rd party warehouse..
- Excellent knowledge of business Terms & Conditions.
- Extensive interaction and influence of international team members (US, UK, Canada) to establish and maintain project focus for the varying priorities of Executive Management, Engineering, Manufacturing, Outside Vendors, and End User Clients.

Computer Skills:

- Very high level on Mac hardware, peripherals, and business software.
- Very high level of skill with MS Windows, MS Office (introductory on ACCESS)
- High level on MS hardware and peripherals

Work Experience:

- 2010-Present Consultant/President
Widescope Services Inc.
- 2001-2010 Canadian Regional Manager
M&J Valve SPX Flow Technology
- 1995-2001 Measurement and Valve Application Specialist
Daniel Industries Canada
- 1991-1995 Daniel Industries Canada
Inside Sales Supervisor
- 1990-1991 Daniel Industries Canada
Inside Sales
- 1987-1990 Associated Valve
Inside Sales/Warehouse

Education:

- Southern Alberta Institute of Technology
Mechanical Engineering Technology – Graduated 1985

Industry Accreditations:

- Certified Engineering Technologist (ASET) since 1992
- ASME Member since 2016

Safety Accreditations:

- H2S Alive (since 1997)
- St. John's Ambulance Level C CPR/AED (since 1997)
- WHMIS/TDG (since 1997)
- Confined Space Entry/Monitor OSSA (since 2011)
- Leadership with Safety Excellence (since 2017-1)
